Detailed Action

This is the second Office Action corresponding to amendment filed Oct 18, 2004 . The application contains 19 claims. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

Claims 2-6, and 9-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 9 is confusing. As presented it seems that the body comprising the lobes are not part of the clip when in fact they are.

Claim Rejections - 35 USC § 103

Claims 2, 6, 9, 10, 19, 22, 23 and 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lazan, Jr (Pat No 3,163,385).

The patent to Lazan shows at Fig 2, a clip (10) having two lobes (26, 18) the former being shaped as a nose, a locking member (32) extending from a base of the nose, and a base (part of 16). The compression and uncompression of the clip is inherit to the material from which the device is made of which is considered an obvious matter of engineering choice. The clip shown by Lazan is capable of being used as described in the instant claims.

Allowable Subject Matter

Claims 3-5, and 11-13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 16-18, 25 and 26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.
